## Strengthen Your Threat Readiness Across the Enterprise

Hybrid infrastructure, digital transformation, privacy concerns, and a shortage of security expertise are just a few of the key factors driving a constantly evolving security landscape. Gartner estimates that security as a service (SECaaS) will represent at least 50 percent of security software delivery by 2020. Is your organization prepared to keep up and stay on top of emerging security trends?

Clarify360 can extend your IT security team and provide solutions to future-proof your security stance. We work with each of our clients to ensure they're ready to recognize and mitigate security risks proactively by identifying solutions across the following areas:

### Threat Management

- Managed Threat Detection
- Managed Secure Web Gateway
- Managed Network Access Control
- Managed Email Security
- Managed UTM
- Managed Two Factor Authentication
- Managed Endpoint Protection
- Managed Application Control
- Managed IDS/IPS
- Managed DDoS Protection
- MDR for Endpoints
- Detection, Analytics & Response
- Firewall Management
- Digital Forensics & Incident Response
